Project

Our customers know that we see the world through their perspective and are committed to assisting them and their businesses. Anything we do is based on this principle, from determining the best shipping schedule to determining the best way to organise it; separating or distributing loads; integrating other value added services; and delivering consistently timely and high-quality service.

Our specialist teams have handled a wide range of inbound and outbound freight, including commercial containerized cargo, hazardous goods, home appliances and furnishings, construction materials, vehicles, consumables, and foodstuff, as well as bulk cargo and break bulk, such as industrial / processing plant installations. We provide last mile services by taking care of your shipment from the beginning, when it is shipped out of the warehouse, to the finish, when it is sent to your factory's doorstep in any part of the world.

TRANSPORTATION

The main emphasis is on achieving the highest level of customer satisfaction while still cutting prices. BAFCO International has been developing and operating end-to-end systems that blend the distinct strengths of air, sea, rail, and road transportation with high visibility.

Covering all modes of transport, we provide you with a vast fleet of flatbed and low bed trailers and a comprehensive insurance cover to provide added security and safety to the cargo.

BAFCO International is specialized in containerised traffic, however, we also specialise in arranging curtain side trailers/flatbed trailers for non containerised loading within the Kingdom. Special trailers like low beds, multi axle trailers are arranged to carry out-gauge cargo and we also have our own reefer trucks for moving live reefers from one location to other for delivery or export.
